

```
import java.util.Scanner;
class Main
{
    public static void main(String[] args)
    {
        Scanner input=new Scanner(System.in);
        String str=input.nextLine();
        for(char i:str.toCharArray())
        {
            if(str.indexOf(i)==str.lastIndexOf(i))
            {
                System.out.print(i+" ");
            }
        }
    }
}
```
