

```
import java.util.Scanner;
class Main
{
    public static void main(String[] args)
    {
        Scanner input=new Scanner(System.in);
        String str=input.nextLine();
        String newStr=str.replaceAll("[()]", "");
        System.out.print(newStr);
    }
}
```
