```java
import java.util.Scanner;
class Main
{
    public static void main(String[] args)
    {
        Scanner input=new Scanner(System.in);
        String s=input.nextLine();
        String str=s.replaceAll("[aeiouAEIOU]","");
        System.out.print(str);
    }
}
```
